

Privacy SAFER

INDUSTRY

Insurance, Security, Retail bank, Credit Card, Real-estate, Retail

CHALLENGE

Routine production and retention of privacy data are industry common practices, often leaving traces of privacy data on employee's PC, exposing the company to compliance risk. Recent data breach incidents have led to strengthening the compliance law such as GDPR. To meet the new compliance law, companies must increase visibility on traces of privacy data and improve ways to prevent privacy data leakage from individual devices.

SOLUTION: Privacy SAFER

Best Privacy screening tool to automatically detect privacy data on employee's personal device and proactively protect from privacy data leakage

BENEFITS

Automatic detection

Delete, moved to a secure folder, or encrypt privacy data

Customize 'privacy data' Definition

Auto-mask privacy data when printing

Log tracking and monitoring
