# Transforming Education with Digital Tools

For over 20 years, Compass Publishing has been guiding learners on their path to English language mastery. Our extensive print and digital catalog is not only enjoyable and engaging for students, but also reliable and easy for teachers to use.

Now, technology is transforming education. At Compass, we recognize that these new tools offer powerful and exciting new ways of delivering content and tracking learning. We have applied our ELT expertise to producing a digital learning platform that is both fun and effective. And we've made sure that it's easy to use, so it never gets in the way of the learning experience!

Discover how CLASSBOX and BIGBOX can transform your students' learning!

# CLASSBOX

**CLASSBOX** is an online digital platform for teachers of English. It includes a full lineup of Compass contents, including interactive e-books, videos, songs, readers, and supplementary materials, as well as an easy-to-use LMS to assign homework and track your students' performance.

**With CLASSBOX, you've got all the digital tools you need to take learning to the next level for your students!**

## **How it works**

Create an account at [classboxenglish.com](https://classboxenglish.com) and access your 15-day free trial.

Set up a virtual class. Add students manually or share the class access code with your students so they can join.

Choose from a library of hundreds of high-quality ELT e-books, all featuring interactive tools multimedia and supplementary materials. Use them for teaching in class or online.

## Key Features

- Access to hundreds of Compass e-books, with markup tools and built-in answer key and audio
- Free downloadable supplementary materials to support teachers and students learning
- An easy-to-use LMS for assigning homework and checking student progress
- Recommendations for enriching your English course with additional materials for skills development
- Library of professional development webinars to help you build your teaching skills
- Integration with BIGBOX student learning application
- Can be packaged with premium BIGBOX content, unlocking hundreds of engaging playbook readers and quizzes for your students

# Digital Books

CLASSBOX offers a library of Compass's high-quality ELT material. There are more than 100 courses for students ranging from kindergarten to adult. You can choose from course books, skill books, and courses focusing on grammar and vocabulary.

Every digital streaming book comes with everything you need to teach your students in the classroom or online. They include annotation tools for making notes and inserting links in the books. They also include embedded audio, a built-in answer key, and downloadable worksheets, wordlists, and tests.

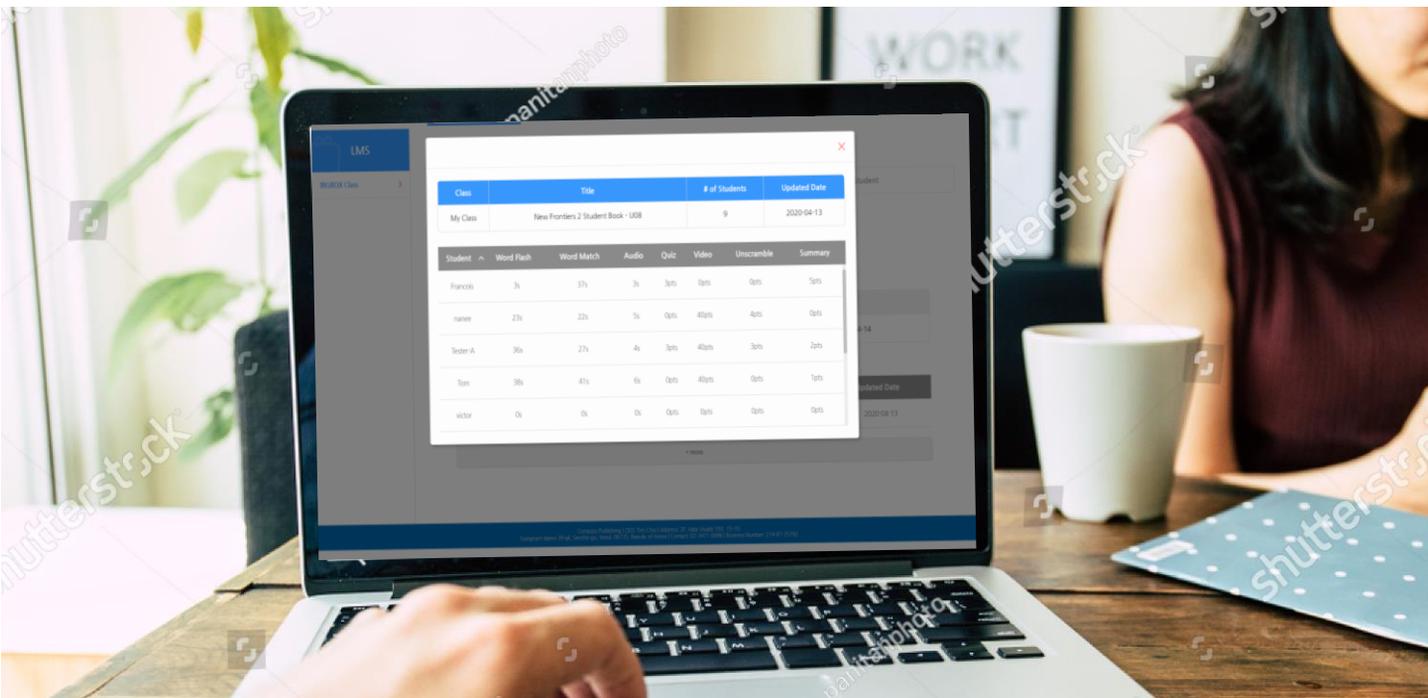

# Learning Management System

CLASSBOX includes an easy-to-use learning management system, or LMS.

With it, you can **manage your classes**. Create classes on the LMS and share the class access code with students. This allows students to easily join the class on CLASSBOX or on the BIGBOX learning app.

You can **assign homework** to your students on the LMS, and it appears as a notification in their BIGBOX application. On the LMS, you can also **view real-time reports** of your students' participation and performance on their homework.

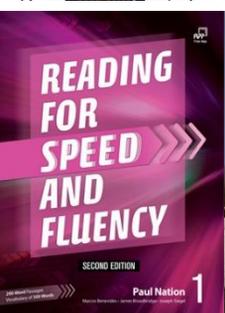

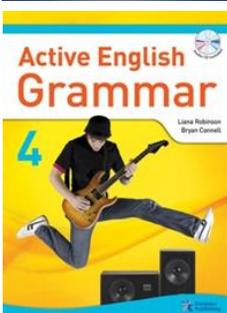

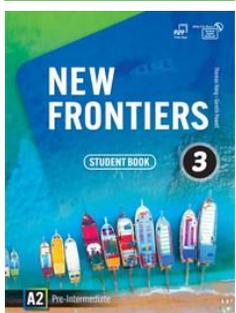

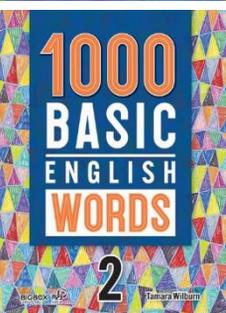

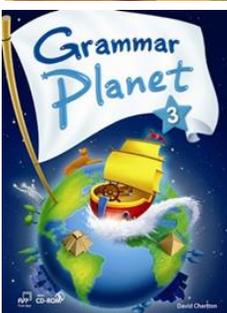

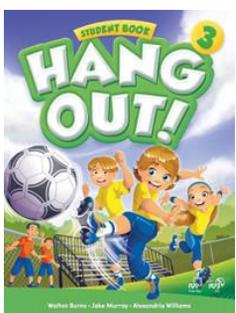

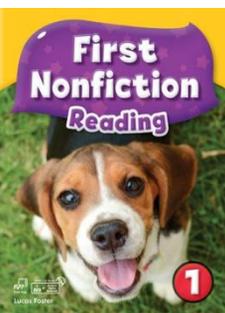

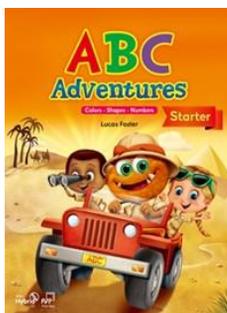

# Programs

With over **1,400 titles** to choose from, you can create your own customized English classes. CLASSBOX provides recommendations for enriching your students' language learning to get you started.

Our curriculum experts have put together recommended programs of study for students from **kindergarten to adult**.

Get recommendations for **coursebooks and the skill books** that can complement them, chosen from our catalog based on level and skill, to give your students a well-balanced education.

## Coursebook Recommended Skill Books

# Online Seminars

Improve your teaching by accessing CLASSBOX's library of professional-development and teacher-training content. There are a **wide range of topics** presented by experienced ELT professionals and teachers.

Get notifications about regular seminar events that you can watch **live** and participate in. Or choose from a library of pre-recorded workshops & other online content.

Learn new techniques and keep up with the latest trends in ELT!

# BIGBOX

**BIGBOX** is an English learning application aimed at younger learners. It allows learners to develop their English skills in a fun way by watching videos they are interested in and playing fun learning games.

Available on Android and iOS devices, and on PC.

## Key Features

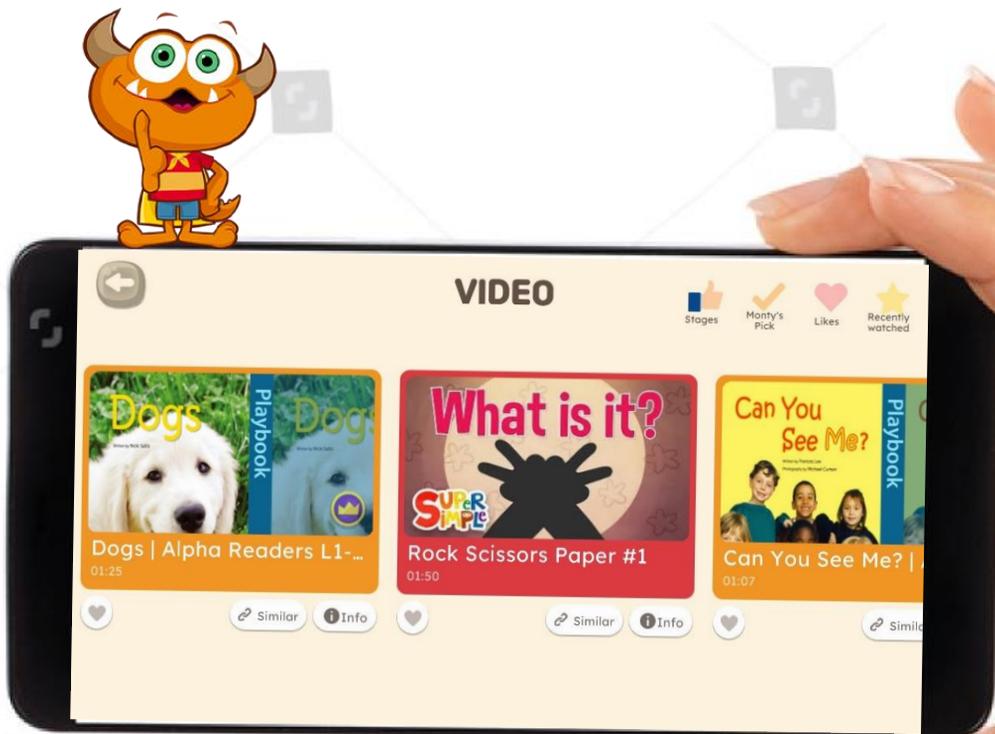

- An extensive library of over 10,000 curated English videos and playbook readers on a variety of topics
- An algorithm that makes personalized content recommendations based on age and interests
- A highly motivating learning method that involves collecting word cards, learning expressions, completing quests, and playing games and quizzes
- An AI chatbot that learners can interact with to practice their language skills

# Curated Videos and Playbooks

The core of BIGBOX is a carefully curated library of **over 10,000 leveled videos and playbooks**, on a wide range of high-interest topics. When students first open the app, they enter their gender and age, and choose topics that they find interesting.

The app's algorithm uses this information to present contents **specially selected** for the student. Constant feedback from the student adjusts these recommendations, gradually improving them.

Through exposure to understandable content they are interested in, students naturally become more familiar with English.

# Gamification

As students watch videos and playbooks, they **collect word cards**. At-level words are extracted from the content and are presented to the student after each video or playbook. To claim the card, the student must pronounce the word correctly. Students can collect 3000 word cards, which they can level up by playing games.

After collecting enough cards, child enters Word King, a game show with four rounds of competition against AI players. The students **play games** with their word cards and earn points they can use to customize their avatar.

In the Expression Forest, students can talk with an **AI chatbot**, Monty, using the words and sentences they have learned, so you can naturally practice sentence combinations and reading.

# Reading Oceans

Included in BIGBOX, Reading Oceans provides learners with a **high-quality extensive reading program** which can be streamed on digital devices.

Reading Oceans is a library of about 1000 carefully graded e-book readers, from **phonics-decodable to upper-intermediate level**.

The selection of readers includes both fiction and non-fiction on a wide range of high-interest topics.

Each reader includes **embedded audio and follow-up activities** covering vocabulary, key expressions, and content.

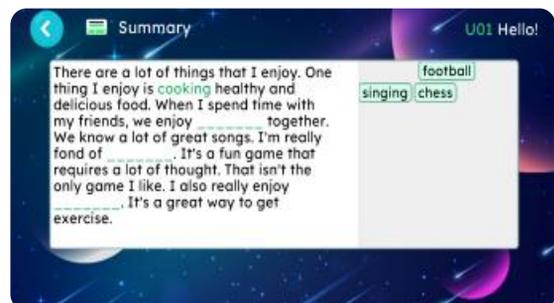

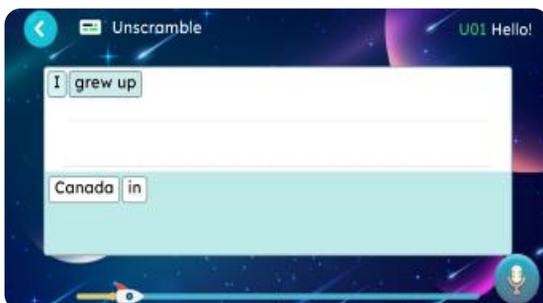

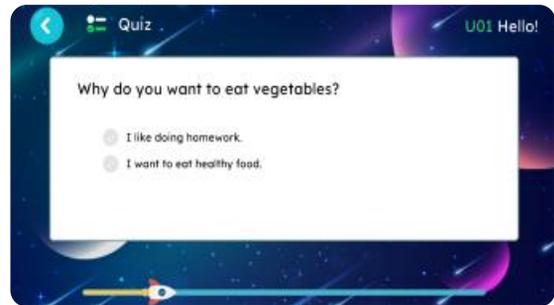

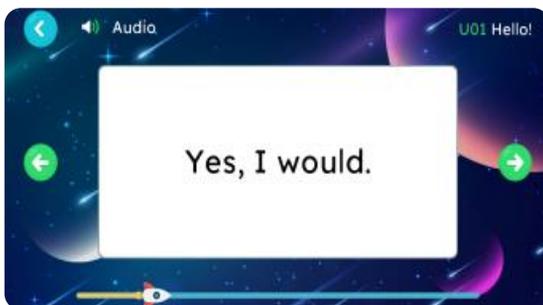

# Class Booster

Included with BIGBOX, Class Booster is an **e-learning application for Compass ELT books**. Each book has up to 7 digital activities, including Word Flash, Word Match, Quiz, Unscramble, Summary, Audio, and Video.

Class Booster can be **linked with the CLASSBOX LMS**, which the teacher can use for sending homework to students and getting reports on their performance.

When homework is assigned, learners receive a “Quest” notifications in their app. By completing their homework, they receive coins they can use in the game.
